# Storia Reading Circles Program to build independent readers!

Storia's Reading Circles Program motivates your students to become more confident, independent readers as they advance through measured levels during the school year—building comprehension and critical-thinking skills, and planting the seeds for a lifetime love of reading..

# 1

## Assign each student to a circle right for them

Teachers use the Reading Wizard to search their digital library to create a Storia bookshelf that best matches a student's current reading level—measured by either Guided Reading or Lexile levels.

# 2

## Let your students choose

Once assigned to a Storia circle, students can choose from a selection of Storia titles at their level to find the reading subjects that interests them most.

# 3

## Review Reading Progress

Each time a student completes an eBook, they take the included Reading Challenge quiz that measures their comprehension, with the results available for teachers to view in real time.

# 4

## Recommend Additional Titles

After completing an eBook, students are presented with a selection of just right titles to keep them reading.

# 5

## Reward Student achievement

Teachers are notified when a student completes the titles assigned to their circle, and approve their advance to the next level. For each step up, students receive a fun digital badge in recognition of their achievement.

### Bonus Reward!

Each student who completes all five reading circles in a school year receives a **FREE** eBook to add to their own Storia digital for home!

# What is Storia?

Storia is a unique eReading experience from Scholastic designed to inspire today's kids with a love for reading, and offer teachers and parents the tools to better support the literary success of every child.

## Best eBooks

Discover thousands of highly curated Scholastic titles for Pre-K to young adult, including fiction and nonfiction—from award-winning classics to today's bestsellers.

## Enriched eBooks

Look for the lightning bolt icon for fun, contextual learning activities that challenge and engage at every age and reading level.

## Built-in-Tools

Reading Tools include a highlighter for marking text and passages, and a note-taking feature to help with homework and book reports.

## Learning Activities

Heighten the reading experience with an array of puzzles, quizzes and word games that help build comprehension and retention.

## Reading Challenges

Test comprehension at the end of a story and record the results directly to a student's individual Reading Report.

## Reading Reports

Track individual reading progress through a detailed record of eBooks read and time spent reading.

Look Up

## Storia Dictionary

Learn the bigger words with instant, age-appropriate definitions of text, image, and optional narration—without interrupting the story.

## Read-to-Me eBooks

Build reading confidence with fully produced, real-voice narration with music, sound effects, and highlighted text young readers can follow.
